

# WHO'S COACHING, INSTRUCTING YOUR KIDS?

Something to think about when you hire people to work with your children, when it comes to their interests and sports.

- Are these instructors and coaches **SAFESPORT CERTIFIED**? They NEED TO BE!
- Do you know who is working with your kids, are they certified, background checked and qualified?

When it comes to horse riding lessons, the same question pertains to the coaches, but you need to also ask:

- What horses will my child be riding?
- Are they safe horses?
- Are the horses trained to allow anxious kids to ride them?
- Are the horses, top-quality?

**Here at 2UW Ranch, all of our coaches and instructors are SAFE SPORT CERTIFIED and background checks have been done. We use only top-quality horses with extended experience and time with children; plus are cross-over trained.**
